Dear

Yes!

I am pleased to inform you that your application for admission to Philadelphia College of Osteopathic Medicine for the class entering in August 1996 has been favorably acted upon by the Faculty Committee on Admissions. Congratulations!

Admission to PCOM is conditioned on your ability to meet the College's Technical Standards for Admissions and Matriculation. A copy of the Standards is enclosed. You should review the Standards carefully, complete and sign the last page, and return it with a \$500 tuition prepayment. The non-refundable prepayment, which is necessary to confirm a place in the Class of 2000, must be received by April 4, 1996 and will be applied to your tuition for the 1996 Fall Term.

Your admission to PCOM is also conditional on your maintaining a high level of academic accomplishment, and your personal and professional life must reflect the highest standards of moral integrity and professional dedication. Should you, for whatever reason, fail to maintain high standards in all areas, your acceptance will be withdrawn.

You are now about to prepare yourself for a career of public service and public trust as an osteopathic physician, a career which will bring you great satisfaction. Again, our congratulations to you. We look forward to welcoming you.

Very truly yours,

Timeline

Our Historical Synopsis

1800-1900

Mason W. Pressly, D.O. and O.J. Snyder, D.O. founded the Philadelphia College and Infirmary of Osteopathy (PCIO).

The College opened in two rooms in the Stephen Girard Building, a new thirteen story office tower at 21 South 12th Street in Philadelphia.

The first move from downtown was to 33rd and Arch Streets in the suburban Powelton Village Section of West Philadelphia.

1903-1908

1908-1912

PCIO migrated to yet another site in 1908 due to growing classes and the need for larger physical plant to accomodate the new four year curriculum.

The new location was at 1715 North Broad Street.

1900-1903

February 1, 1900 PCIO's second downtown location, the newly built Witherspoon Building at Juniper and Walnut Streets.

HOME OF OSTEOPATHY IN PHILADELPHIA

1912-1916

The city's first Osteopathic Hospital was opened in the Society Hill neighborhood at 410 South Ninth Street. The College moved around the corner to 832 Pine Street.

— 1917-1929 —

Shortly before the United States entered World War I, PCIO moved into new quarters in Philadelphia's Fairmount section. A fund raising campaign enabled the college to purchase, build and equip the academic building as well as the hospital. January 24, 1921 PCIO officially changes its name to the Philadelphia College of Osteopathy (PCO).

— 1929-1973 —

The College obtained a new building at 48th & Spruce which allowed for improvements in research facilities. Space was allocated for a pathological museum while at the same time the student enrollment grew from 240 to 500 students.

— 1973-1980 —

On March 3, 1973 PCOM moved all but two basic science departments to the new modern facilities to the present day City Avenue campus. At the end of the 1980 academic year the final departments were moved from West Philadelphia to Evans Hall located at 4170 City Avenue.

— 1980-1996 —

With the first year class now numbering 200, PCOM again looked to expand its facilities. The problem was solved with the acquisition of the empty five-story building at 4190 City Avenue, now known as Roland Hall.

— 1996 - Present —

Growth on every level has continued into the latter part of the 20th Century. Evans Hall was enlarged to accommodate additional academic programs. A new Student Activities Center was also added in 1998.

HIPPOCRATIC OATH

I SWEAR by Apollo the physician, and Aesculapius, and Health, and All-heal, and all the gods and goddesses, that, according to my ability and judgment, I will keep this Oath and this stipulation to reckon him who taught me this Art equally dear to me as my parents, to share my substance with him, and relieve his necessities if required; to look upon his offspring in the same footing as my own brothers, and to teach them this art, if they shall wish to learn it, without fee or stipulation; and that by precept, lecture, and every other mode of instruction, I will impart a knowledge of the Art to my own sons, and those of my teachers, and to disciples bound by a stipulation and oath according to the law of medicine, but to none others. I will follow that system of regimen which, according to my ability and judgment, I consider for the benefit of my patients, and abstain from whatever is deleterious and mischievous. I will give no deadly medicine to any one if asked, nor suggest any such counsel; and in like manner I will not give to a woman a pessary to produce abortion. With purity and with holiness I will pass my life and practice my Art. I will not cut persons laboring under the stone, but will leave this to be done by men who are practitioners of this work. Into whatever houses I enter, I will go into them for the benefit of the sick, and will abstain from every voluntary act of mischief and corruption; and, further from the seduction of females or males, of freemen and slaves. Whatever, in connection with my professional practice or not, in connection with it, I see or hear, in the life of men, which ought not to be spoken of abroad, I will not divulge, as reckoning that all such should be kept secret. While I continue to keep this Oath unviolated, may it be granted to me to enjoy life and the practice of the art, respected by all men, in all times! But should I trespass and violate this Oath, may the reverse be my lot!

Osteopathic Oath

I do hereby affirm my loyalty to the profession I am about to enter. I will be mindful always of my great responsibility to preserve the health and the life of my patients, to retain their confidence and respect both as a physician and a friend who will guard their secrets with scrupulous honor and fidelity, to perform faithfully my professional duties, to employ only those recognized methods of treatment consistent with good judgment and capacity for recovery. I will be ever vigilant in aiding in the general welfare of the community, sustaining its laws and institutions, not engaging in those practices which will in any way bring shame or discredit upon myself or my profession. I will give no drugs for deadly purposes to any person, though it be asked of me. I will endeavor to work in accord with my colleagues in a spirit of progressive co-operation, and never by word or by act cast imputations upon them or their rightful practices. I will look with respect and esteem upon all those who have taught me my art. To my college I will be loyal and strive always for its best interests and for the interests of students who will come after me. I will be ever alert to further the application of basic biologic truths to the healing arts and to develop the principles of osteopathy which were first enunciated by Andrew Taylor Still.

Dear Class of 2000:

My heartiest congratulations to you, Philadelphia College of Osteopathic Medicine's 109th graduating class, the first graduating class in the new millennium. As a group, you have earned the respect of your faculty on this campus as well as those off campus. PCOM has provided you with clinical training in the ambulatory setting far above others. Your training, supported by the osteopathic philosophy, will assist you in meeting the challenges and demands to control health care costs while maintaining a consistent level of care.

I am proud of your accomplishments and, as you embark on your career as an osteopathic physician, know you will serve your college and profession well. As a member of the PCOM Family we extend our best wishes as you pursue the next phase of your career. Whatever the future holds, PCOM remains supportive and willing to assist you in achieving your goals.

On behalf of the Board of Trustees, faculty, staff, and all PCOM alumni/ae, I congratulate you on your achievements and wish you great success, happiness and satisfaction as you enter the osteopathic profession.

Fraternally,

Leonard H. Finkelstein, D.O.,

Dear Colleagues,

PCOM's Centennial Year has come to an end and so has your undergraduate medical education. You have been witnesses to many things that have come and gone or to new things that have been introduced during your four years at PCOM.

Gone is the old medical library having been replaced with a newly expanded state-of-the-art library. Several new small group classrooms and study carrels were built in Evans Hall. You attended OMM lab in the new facility in Evans Hall instead of the small, out-of-date lab in Rowland Hall. Gone is the old cafeteria. We now have a spacious, relaxing and conducive atmosphere in which to eat. Gone is the old Roxborough health care center. It has been totally refurbished and expanded to meet the needs and comfort of our patients and students. And, lastly, the opening of the new Student Activity Center.

The campus has certainly undergone a metamorphosis! So, too, have all of you. Yours was the first class to have a White Coat ceremony. From the days of orientation lunch on the roof of the parking garage to walking down the aisle of the Academy of Music with friends and relatives in attendance welling up with pride, you have been in a slow process of evolving. Gone is the fear of the unknown and uncertainty of your undergraduate years. These are replaced by the challenges of the next stage of your education. You now are more assured of yourselves and of what to expect of your colleagues and chosen profession. You are now osteopathic physicians! I am proud of each of you.

Nurture the relationships you have developed with classmates over the last few years for they will sustain you in your career for years to come. Serve your patients well for they have entrusted their health to your care. Be blessed with good health and years of happiness and well being. Please remember your Alma Mater with fondest memories and return to visit when possible - you are most welcome!

Fraternally yours,

Crossing the Bar

Sunset and evening star,
And one clear call for me!
And may there be no moaning at the bar,
When I put out to sea,

But such a tide as moving seems asleep,
Too full for sound and foam,
When that which drew from out the boundless deep
Turns again home.

Twilight and evening bell,
And after that the dark!
And may there be no sadness of farewell,
When I embark;

For tho' from out our bourne of Time and Place
The flood may bear me far,
I hope to see my Pilot face to face
When I have crost the bar.

MATTHEW FRANCIS AIKEN, D.O.

Fairfield University, B.A.
Canton, Massachusetts

Thanks to everyone who has supported me for these past four years.

Special thanks goes to my family, especially my dad who is my greatest inspiration and mentor to be a physician. I love you all.

Mary Ailis, I can't wait to share our lives and careers together. It will be hard work but I know we can do it. Thanks for everything. I love you.

Matthew D.O.

MARIE ELIZABETH ALDEN, D.O.

Penn State University, B.S.
Norristown, Pennsylvania

"Man's mind, once stretched by a new idea, never regains its original dimensions."

Oliver Wendell Holmes, Jr.

Dad – Thank you for instilling in me the work ethic that has made it possible to face the challenges of the past four years. You raised four children who greatly love and respect you and will always cherish your friendship and guidance.

Mom – My future step-mama, thanks for taking care of my Dad and us for so many years. You're going to be a beautiful bride in your WHITE gown. I love you.

Katie and Christine – My best friends in the universe. I'm so lucky that the closest people to me are also my sisters. I idealize both of you – Katie, for your enthusiasm and good-heartedness and Christine, for your sense of morality and determination. I look forward to seeing what our futures hold.

John – My favorite brother, thanks for all of the support through both college and med school (especially for the gourmet meals at PSU and when I was studying in LaPorte, PA).

Uncle – Thanks for making me laugh every single day. Your incredible personality and positive attitude are inspiring. You're going to be a wonderful B/GYN.

Uncle, Ed and Ben – We've had some great escapades the past four years. Hey Ed, I'll call you, I mean it!

"It should be the function of medicine to have people die young as late as possible" --Ernest C. Wyne
"Maybe you ain't heard, you know you been away a long time, I don't shine shoes no more"
-- Joe Pesci, in "Goodfell"

This page is dedicated to Grandmom and Grandpa Allegretti

Mom: Where to begin! Words definitely fall short of describing my thanks and debt that I owe you. You are as big a part of this degree as me and I couldn't be happier than to share this with you. I always say I'll match you up with any mother in the universe and it would be no contest, you're the best. Thanks for always being there (sometimes late like your son) but always there, waiting, with a dish of pasta, a meatpie or some other fantastic food. Behind every great man is a mom like you, if they're lucky. Thanks Mom!

Dad: I did it! I know you weren't always in agreement with my methods but I know we're both happy with the outcome. Thank you for instilling in me the priceless values of hard work and dedication. Those days of doing homework with you were back were terrible then, but are a big part of the reason I am here in this yearbook today. I hope you know how much I really do respect and admire you. Dad, I think I'm finally finished with "school" now, and I'll go get a real job.

Rich, Dave, and Jennifer: I know you guys were also wondering when your big brother would finish school. Thanks for being my release from school and anything else every step of the way even though I wasn't always around. You guys are my foundation, my family, and my friends and I know I can count on you guys forever. Remember the bees, fantasy football, and the BRT.

Nona and Nonno: I am forever grateful for your support and sopresata. C'ent Anni nona and nonno!

Lewy and John: Lewy, thanks for astounding me every step of the two years we lived together and John, thanks for being the next to me, astounded as well. "You have no idea dude" will always remind me of you two guys.

Andy (Kells): My new roommate but lifelong friend. I'm sorry I scared you in biddy basketball if you're sorry you shot holes in my beer. Dorsett is definitely better than Dickerson.

Greg: My other new architect roommate. Thanks for the golf tips and getting me in good with my family, you're the best. Also thanks for looking like everybody. Uncle Freddy didn't die?

Cook, Scripps, Bohn, Silber: Thanks for the white trash, phallic symbols, car variety, and golf cart trips. I know Cook, that was gay. You, you want six pack holder.

Caroline: Thank God for blanket warmers! Every day is better than the last since I've met you. The end of medical school has hopefully brought me a beginning to the rest of my life.

Oh yeah, How bout them **Cowboys**!!!!!!

CECILIA BERNADETTE ALVARADO, D.O.

University of Central Florida, B.S.

Orlando, Florida

Spread love everywhere you go...be a living example of God's kindness.

In Loving Dedication to my Father

Thank you, **Daddy**, for making me who I am. You taught me to believe against all odds, to never lose faith, and to forever dream. You showed me to strive for the magnificent while embracing the humble. Your tireless effort laid my foundation, and your example will always be my guide.

Thank you, **Mama**, for your unending support and prayer. I hope to someday inherit the courage, strength, and fidelity you've shown throughout my life. You are an amazing and beautiful woman and I am honored to call you not only Mother, but Friend.

Thank you, **PJ and Moni**, for being my sunshine. What a marvelous privilege it is to be your sister. Flourish. Learn from the hard times, treasure the miracles, and trust me on the sunscreen. Pow-wow power!!!

My dearest **friends**, the last thing I expected out of medical school was to share the ride with such remarkable people. I have learned from you all and thank each of you for the laughs, tears, and memories.

Michael, living life together is my greatest blessing ever. You are my inspiration and motivation, my best friend and eternal companion. I love you.

ERICA LYNN ANDERSON, D.O.

Philadelphia College of Pharmacy and Science, B.S.
Nottingham, Pennsylvania

Look for yourself, and you will find in the long run only hatred, loneliness, despair, rage, ruin, and decay. But look for Christ and you will find Him, and with Him everything else thrown in.
C.S. Lewis

Mom- For every floor you have scrubbed, every bag of food you've packed and for every prayer you made on my behalf, I am so grateful. Although you would have been just as proud if I could keep a clean house, this will have to do for now. You are my role model. I love you.

Dad- Thank you for ballet shoes, trips to Philly to fix the car and for making sure I could change my own tire. Remember, being a doctor is not much different than fixing a car—If you can fix the car with the hood shut, that is. I love you.

Moo, Buck, B and Gregg- I've never known a family with more diversity. I am thankful for each of your unique personalities. Thanks for loving and supporting me even though I know you all think I'm the spoiled brat of the family. I love you guys.

Mom mom- When I feel I'm in the midst of chaos, you are always a sense of calmness and a reminder that He is in control. I love you.

The Girls- "No matter where we are, no matter what we do, we will always eat and drink together." ("and see our babies before they're six months old") Thanks for defining true friendship for me.

Matty- I think that He is taking our little cottage of a life and turning it into a palace. I am thankful that I am taking this journey with you.

I love and look up to you more every day.

Kristin- Of all the things I have learned, the most valuable are those learned from you. You have taught me to love, to know myself, and to strive for happiness above all else.

Of the people I have met, none have captivated me so much as you. Your beauty, your charm, and your wisdom are unmatched in my eyes. What I have done to deserve you I will never know.

Of the time I have spent in this world, none is more precious than that I have had with you. I am fortunate to have grown with you on this stage in our lives, and I am quite certain that I would be very different today had you not been a part of my life. We will always be connected on the deepest level. No matter where life takes us from here, Kristin, know that I will love you forever.

When school began four years ago, it seemed like an eternity would pass until graduation. Now, I realize it passed too quickly. I have made new, life long friends and gained a different outlook on life. My years in medical school were precious and I will always cherish them.

I want to thank my mother and father for seeing the potential in me and nurturing it. Thanks to my friends that made medical school a special experience.

But most of all, I want to thank my love, Peggy, who gives me strength, hope, and above all, her LOVE. Babe, you have made all my dreams come true.

What an experience Medical School has been. There are so many memories and people to thank. First, to my family, without you I know this accomplishment would have been a lot tougher. I would like to thank Mom, Grant, and Blaine for their never ending encouragement. You all were always there to listen and boost my morale. I appreciate your unwavering support. To my Grandpa, and Grandma for your constant support and optimism. I respect your sound judgment and knowledge. Our times together have been etched in my memory. And Robin you have meant so much to me. I treasure your part in my life during the good times and unique medical school experiences. I love you and look forward to the future. Mom and Dad: Do you remember that phone call from Barcelona when I told you to call PCOM and tell them I'm coming!! I can't believe that was four years ago. Thank you for always giving me the strength and support to do whatever I set my mind on. Most importantly, thank you for PUSHING me over the fears that stood in my way. Now, as I begin my career and marriage I feel well prepared to handle whatever life throws at me because you've instilled in me the skills and self-confidence to strive for success. I love you.

Jill and Rich: My big sister and brother, thanks for paving the way for me through parents, college and careers. You've always been and will always be my idols, inspiration and best friends. I love you.

The Posse: What will I do without you? Kathy: our fearless leader...you were not only my test buddy and OPP partner but also my shopping soulmate! Loren...you gave me enough passion to love every topic I studied even while running along the river. Alison...you've always been ready to lend an ear and drink a beer (T.G.I.F.) for any reason! Jen...you made Anatomy Lab almost too much fun it was like studying at the Princeton. You all made medical school more fun and exciting than I ever could have imagined....we did it! I'm so proud of you!

Kelly: My roomie! How lucky I was that you signed me up for 4048 Balwynne Park Road four years ago. It feels like we've been through so much so fast and yet you've been the best roomie and the best friend I could ask for...just don't mention the pink robe!

Chris: Oooooo weeee you're good lookin'! Ever since I met you in Arena's three years ago I have yet to get my mind off of you. Now I'll graduate from PCOM as your wife and partner through life...how lucky I feel. You've already enhanced my life in so many ways with your unconditional love and giving spirit. You've always been there to listen, truly listen, through rough times and encourage me to be my personal best in everything I do. In the style of the Academy Awards, let me briefly (ha, ha) list the people to whom I owe this extraordinary day. My life and my accomplishments I owe to the grace of **God**, who has seen fit to bless me with a mind and talent suitable to the medical profession. **Mom & Dad**, I have you to thank for building my character, for teaching me humility, kindness, and above all for giving me a work ethic which will carry me through the rest of my life. My sisters, especially **Tasha**, I thank for listening, for laughing, for sympathizing. **Joseph**, my husband, my "bestest friend," I love you—you've been right there every day of the past 3 years, loving me through the stress, the self-doubts, the tears, and the frustrations—always reminding me of what is truly important in life. To my cat **Homer**, who lay with me many late nights studying. Finally I want to dedicate this page to the memory of my **grandmother**, who inspired me and challenged me with an example of godliness, compassion, and unconditional love—I hope I can live a life half as meaningful. My most sincere expression of gratitude is reserved for my dear wife, Calli. Together we shared in triumphs and defeats of profound proportion, and endured a seemingly incessant string of supercilious 'away rotations.' But in the end, our memories of PCOM will always be preceded by the friendships we established, and the growth and expansion of our respect, trust and love for each other. Invaluable bonds, such as these, allow our relationship and marriage to flourish beyond the expectations of even the most optimistic.

I also wish to thank my friends, family and parents whose unremitting support, patience and affection made this endeavor possible. Unquestionably, were it not for them, I would have never made it.

I am truly grateful for every miracle in my life: family, friends, and the opportunity to reach a goal I have had since I was nine, to become a physician.

Tom and Dad: You are the greatest inspirations in my life. Your unconditional love, support, and sacrifice have given me the strength and wisdom to reach my goals in life. Thank you for being there for my small victories and enormous crises. You are truly my best friends. I love you.

DAD: I never would have made it through Chemistry and Calculus without you. You are truly my biggest role model and hero, and I can only hope to be like you someday. All of those endless nights of studying; all of the times that I wanted to give up, I made it through by thinking of the one thing you have always said to me... "How bad do you want it?" Your hard work ethic and determination was the foundation of mine, and I thank you for that.

MOM: Your role in my success was equally as important. You kept me believing in myself when I didn't, and you had faith in my abilities when I thought I would fail. Your belief that I could overcome any obstacle only made me work harder to prove you right. Thank you for comforting me whenever I had a setback, the most of all thank you for never letting me accept failure, I could not have accomplished all I have without you.

MOM AND DAD: Well, I did it! Not to bad from the little Italian kid who could not speak a word of English when he started! Thank you for being such great supporters of everything I do. If it hadn't been all of your sacrifices and hard work, it would have been impossible for me to put in mine. I know that I could never begin to repay you for all that you have done for me, and what makes you so special is that you would never expect me to. I am forever in your debt and I want you to know that just as you have always been there for me, I will always be there for you in the future.

THOMASINE: It seems like only yesterday that we were sitting in your car and I was trying to convince you that a long distance relationship would work. Well, you took a chance and now, 8 years later, we find ourselves engaged and planning a wedding. I would never have made it through college and medical school without having your voice to look forward to on the phone each night. You kept me focused when I needed to be, and listened to me when I needed someone to talk to. The fact that you stood by me for 8 years and I was away only reinforces my longing to be with you for the rest of my life. I love you more than words can say and I thank you for helping me achieve my dreams.

MARCO: Thanks for being a great little brother and friend. You have helped me accomplish so much without even knowing it. Because of you, I have tried to be a better person. If it weren't for you to set an example for, I may not have worked as hard or done as well as I have. I hope that I can in some way be a source of inspiration to you as you have been for me.

You did all the little things that made such a big difference. Couldn't have made it without you. Love Always.

To my Son (Sean): You were born the day I was accepted to medical school. Watching you grow and progress made it so easy to realize how unimportant medicine can be. Look forward to lots more daddy time.

Ma and Pa Bohn: Thank you for being the best two parents a kid like me could ask for. I am truly deserving of all the time, love, and attention that you both so generously afforded me. Thank you for being in me from the start. I love you both with all my being.

Here it is, the end of my many years of education. I'm actually going to have a job and receive a paycheck. There are so many people that made my dream a reality.

Mom and Dad, what can I say, I owe you more than I could ever pay back. Thanks for everything, all the support, love, Amy and Todd, and of course a few dollars here and there.

Mindy, I love you. Thanks for all your love, encouragement, and any reality check that Amy might have missed. How about a house in some small town, a couple of kids and a dog?

Amy, Todd and I guess **Adam**, I couldn't ask for better brothers and sister. Amy, you are always good for a reality check when I need it. Adam, I don't know where your energy comes from (I never imagined having a brother-in-law, now I can't imagine anyone but you). Todd, my big little brother, you are the best brother I could ask for. There isn't a day that goes by that I wish you could say what's on your mind.

Jon, Matt, and Jamison, I won't miss studying, but I will miss the nights we all would get together to "study". Thanks for everything you guys.

"I dressed him, and God healed him."

- Ambrose Pare, the gentle surgeon

God is good!! All the time! It is only because of Him that I have made it to this milestone. He has given me so much in my 25 years. I thank Him first for my family who raised and encouraged me to know Him. I thank Him for blessing me with my own family that I began this year with my marriage to a woman after His heart, Melissa. I love you and look forward to singing life's song together. I praise Him for getting me through West Point and through medical school. In the busy times of studying, when my faithfulness would slip, His was stronger than ever. I thank Him for the friends He has given me along the way, for they have been a source of encouragement and strength. Mostly I praise Him for His Son, Jesus Christ, the Great Physician, who died in my place. My prayer is that I never forget that it is God who heals, not men, and that I am blessed to have even the smallest part in ministering to those who are hurting. To Him be the glory for this day and for all days. John 3:16

Mom and Dad: There aren't words to describe how grateful I am to both of you. Thank you for all of your love, support, and guidance. I could have never accomplished my goals without you.

Peter and Jon: What can I say? You guys are the best. I have fond memories of driveway basketball games, Nintendo tournaments, and backyard football- although I don't think we ever finished a game without someone getting hurt. Thanks for all of your help along the way.

Dan: Thanks for a great four years. I can honestly say that there was never a dull moment. Good luck with all you do- you are one of the best (although not necessarily one of the cleanest).

Krista: You are my best friend and I owe you so much. I am so lucky to have met someone as perfect as you, even if you did go to Lehigh. Thank you for making the good times better and the bad times more bearable. I look forward to sharing many more good times in the future.

Gang: Thank you all for making my 4 years of medical school so much fun. I'll never forget our summers in Avalon, spring break in Puerto Rico, and multitude of fun nights in the city.

Classmates: Congratulations and I wish you all the best of luck in the future.

I would also like to thank Edmund and Francis Daley and Jack and Jean Buckley for helping me get to where I am today.

What is success?

To laugh often and much;

To win the respect of intelligent people and the affection of children;

To earn the appreciation of honest critics and endure betrayal of false friends;

To appreciate beauty;

To find the best in others;

To leave the world a bit better, whether by healthy children, a garden patch, or a redeemed social condition;

To know even one life has breathed easier because you have lived;

This is to have succeeded.

This milestone in my life is a milestone that belongs to all my family and friends equally, for without your support, we would not be celebrating this day. I can only hope that these few words convey how thankful I am to have been blessed with such a wonderful family.

Mom- Ever since I was a little girl, you have been my best friend. Your encouragement and support mean more to me that you could ever know. How can I ever possibly thank you for all that you have given me? I love you.

Grandmom- Your strength and courage have taught me so much throughout my lifetime. Your smile will never be forgotten.

In such a small space, there is still so much to say to so many people....

Rich- Thanks for all your guidance and love....and the time spent in your kitchen working on the personal statements!

Ann- Those 1001 days will always be remembered. Are my lips crooked?

Lori- You are my favorite neighbor and great friend...Do we need to have a diet coke?

Nancy- For those endless sessions, white zinfandel and let's not forget the meatballs!

To all the rest of my family and friends— Thank you for helping me make my dream a reality.

I have been looking forward to this graduation, never really knowing if I'd ever get here, for the past fifteen years. I certainly couldn't have done it without the continuous support and encouragement from my parents. They made me believe in myself. I'd like to thank my brother, Todd, who made me study hard to keep up with the standards he set; Nicole for respecting and loving me even when I haven't been the best sister; Crus who has been calling me "Doc" since the first day of classes; Granddad Gerald who opened my eyes to the air force; and John for supporting my dream to become a doctor knowing that these four years apart would not be easy. I love you all.

The friends and memories that I have made over the past four years will remain with me always. We worked hard and played hard always trying to keep life in perspective. These four years have made me a little wiser, a little more caring, a lot more in debt, and much more knowledgeable. Good luck to the class of 2000 as we go our separate ways to continue to learn and care for others.

Thank you to my family for their support these past years. My lifelong gratitude to my friends, who have taken me from the dance floor of Shampoo, to the great pyramids of Giza, to the slums of the Republic of Haiti. You all are the most interesting, humorous, and dysfunctional people I have ever been fortunate enough to meet. I have given thanks every day for all of you, and I will remember you always. You have made these years some of the best in my life.

There are several people I would like to dedicate this degree to. First of all, I thank God for carrying my family and me through all the valleys and for shining His face upon us. Secondly, to my beautiful wife, Virginia, and our children, Jordan, Stephen, and Leigh-Ana, who all sacrificed much time away from me, yet continued to love me. Virginia, without your loving support, understanding, and faithfulness I would never have been able to endure these last four years. I owe you my life and will forever be grateful to you. Also, I am indebted to Tom and Barbara Walker, my wonderful in-laws who have remained steadfast in their love and support of my family and me. I consider it a great privilege to follow in your footsteps, Tom. You are the greatest physician I have ever known and I thank you from the bottom of my heart for the beautiful example of a Christian man that you have been to me. Lastly, to my dear mother, Lucia Ana, who passed away last year. You taught me compassion for the sick and love for my fellow man. I will always remember you.

"The saddest thing in life is wasted talent, and the choices that you make will shape your life forever."
-A Bronx Tale

This page is dedicated to my grandparents (Cavallaro and Tedesco) because they gave me the greatest gift in the world, my parents. To my Dad: 20 years ago you handed me a little blue football and told me something that I will never forget. You said: "No matter how hard you hit or how many people are trying to bring you down, you always have to keep your legs driving forward, always giving that extra effort." Dad, this piece of advice each day in every aspect of my life and I have one thing to say, "TOUCH DOWN - D.O." You knew all along that they never stop me. I can not thank you enough for all the love and support you have given me. I will never forget the endless hours you spent watching Chris, Mike, and me on the baseball and football fields, hockey rinks, basketball courts, crabbing, fishing, the bumper cars in Atlantic City and millions of other things you enjoyed watching us do. Remember that I will love you always. - Your son, the doctor.

To my Mom: What can I say? You have always been there since day one. Remember the days of helping me study for those horrible spelling and word problem exams in grade school, picking us up from the Prep after football practice, taking me to cub scouts, Epiphany basketball, proof reading thousands of papers, bowling for Epiphany, the one college hockey game that you attended, the 99s that weren't 100s, my miserable attitude, Lat and those damn adverbs. I want to thank you for giving me the means to achieve in life. You taught me how to study and how to keep my priorities straight. I would have never made it this far without your help. Thank you for all the sacrifices that you and dad had to make to send me to the best schools. Mom, I didn't waste my talent I love you.

To my Brothers, Chris and Mike: Even though you guys are my little brothers I look up to the two of you more than you could ever imagine. I watched you both grow up from babies who were scared of the ball, to men who hit 400 foot bombs on the baseball field and can tread the neon on the football field from 60 yards away. You guys have accomplished things in life that I can only dream of. Chris, someday you will be a great doc, I only hope that I can be that good. Mike, hurry up and graduate from law school because Aunt Roe might need help representing me. You guys are my best friends and I love you both.

To my Aunts, Uncles, Cousins and the rest of my family: Thank you for your love, understanding, encouragement, and helping me pay off those student loans.

To Lori: Thank you for your support, love, and patience over the last four years. Meeting you was the greatest thing that could ever happen to me. You're the only "great one." Never a day goes by that I don't think of your smile, us sharing a water ice on the beach, watching you try so hard to win a good game, or just the quiet times that we spend together. I love you more than you could ever know.

To my friends, Rita, I tell you time and again that I would not be where I am now without your help. You have always been there for me. There's never a dull moment with you around. Both of us becoming doctors is a dream come true. Tom, thanks for 12 years of school together and all the hours in the gym when we should have been studying. Jessie, I'll never forget anatomy, the Keys, study breaks, and the endless hours that we spent together. Carolyn, my OPP partner, thanks for all the dinners and animal crackers. Can you forgive me for torturing your Irish life for four years? Nicole, I'm going to Disney World! Melanie, thanks for all the laughs. Chad, thanks for all the lifting advice. Laurie, my "sister" some day we will be that marathon. Carmen and Greg, my two "adopted brothers", thanks for all the memories. I couldn't ask for two better friends. The Fitness W crew, you guys and girls helped me become a better person by pushing me to my physical limits. Thanks for all the spinning classes, runs, and bike rides.

You made the last two years of medical school so much fun.

To My Grandparents: I am so lucky to have been able to share in your experiences and experience your unconditional love. I love you all so much and am so grateful to have been able to partake in so many wonderful memories with you.

Eric: Who would have thought how much our lives would have changed in the past four years? I came to medical school not knowing a soul and left knowing I am going to spend the rest of my life with my best friend. God help me! Eric, I do not have to tell you how much I care about you. I hope that all our dreams come true and look forward to our future together.

To My Friends at PCOM: I am so appreciative for the wonderful friendships I have made and the great times I have had during these past four years. From talking over dinners to just going out and having a beer, have made the "annoyances" of medical school bearable. I wish everyone good luck in the future.

I give all praise to God, for he has given all blessings to me. God never put more on you than you can bear. Success isn't how far you've gotten, but the distance you've traveled from where you started.

Mom: Thank you for your love, support, life-long pride, and encouragement. When I was young, you helped me with my homework and made up tests to help me study. I will never forget those times and how you helped shape my educational basis. Without you, my life may have taken a different path.

Thanks for making a great difference in my life. You were my first friend and will be my last. I love you.

Dad: Thank you for being supportive and always telling me to do the best I can. Thanks for being tough on me when it came to school. I know it has made a great impact on where I am today. My parents, for their undying love and support. Mom, who always has, and still does take care of me. Dad, who taught me never to accept anything but my best and then some.

"Little" Pete. For the past 22 years, I've often wondered what we would be like when we grew up. Today, I'm still wondering. Thanks for being there for me when I've needed you.

Duke Hockey. The team that taught me just as much as anything in life, especially about how to be a man in the face of adversity.

Duke ΣN. Thanks for the good times.

All of my friends and relatives from Short Hills.

COM colleagues. Congratulations to the class of 2000 on a job well done. The road we've traveled over the past four years has been arduous and fraught with sacrifices. But we made it, and now we can do what most have us have waited a lifetime for... Call ourselves doctors!

Finally, to Tricia. The most wonderful, intelligent, beautiful, and loving woman I've ever met. It goes without saying that my life has changed for the better since you became a part of it. Now, as we start our new life together (wherever that may be),

Mom and Dad: Thank you for always believing in me even when I didn't. Without your constant love and guidance, I would be lost. I only hope that I can be half the parent, spouse, and person that both of you are.

To the rest of my family (and KA's) and friends: Thank you for your support, understanding and love.

Rugby, Phi Sig and Sue: Thank you!

Fale: Where do I start? Thanks for everything captain! GFY

Billy D and the rest of the PCOM family: It seems like yesterday, I earned that the short coats were for students and the long coats were for doctors. Well it's about time our coats do a little growing!

Congratulations and thanks for the best roller coaster I will ever ride. ☺

My Angel: You supported me, helped me, and put up with me. I could not have gotten through this without you. You are my strength and inspiration. You then gave me two beautiful boys. Thank you for helping me reach for and achieve my dream. God has really blessed me.

Nicky and John: When my life was coming together and I thought everything was just about perfect, you guys came along and showed me things could get even better.

Mom, Dad, Grandma and Pap Pap: Thank you for all your support and for your undying faith in me. You all taught me never to quit.

Mom, Dad, and Grammie: Thank you for allowing me to take your beautiful laughter/ granddaughter to chase my dream. You have always made me feel like a part of your family (and never like an "in-law").

Mary, Angie and Stacy: Thank you for putting up with me when I rambled on about medical school. Can you believe it? I AM FINALLY DONE WITH SCHOOL!!!

John, Heidi, Jen, Shawn, Jehrib, Darren, Seeta and T.J.: You have all become family to us. I cannot tell you how much you mean to us. We were together through all the blood, sweat and tears. You are very special to me and I could not have done this without you. This will never be a "good bye" - just a "see ya soon". And to John and Heidi, we look forward to raising our boys with Gabrielle.

Denny and Helen: Although you guys were across the country during these years, you were always in my heart. Denny, it was the poem "Man in the Glass" you gave me that I used for inspiration and as a guide to help me through it all. Thank you.

Finally, to God: I thank you for all that I have and all that I am. I know that I have been truly *Dominick A. DeFrances, D.O.* blessed.

Words cannot express the overwhelming feelings I am experiencing as I try to write my heartfelt thanks to all of my friends and family who have given me the strength, courage and heart to become the person I am today. Nothing in this world means more to me than the relationships I have been blessed with. I thank all of you for your unconditional love, support and encouragement over the years.

The memories have become priceless; the love shared unmeasurable; and above all, the friendships created have also become irreplaceable. Wishing everyone a fulfilling and successful career in addition to, a life full of wonder, happiness and love. I will truly miss all of you so.....

Dad: Every time that I felt like I couldn't do this, you told me I could... when I was in need, you offered help; and when I needed love, you gave it without hesitation. Without you, I would NEVER be where I am. My hope is that I can be there for you as you have always been for me. You can't know how proud I am of all your accomplishments... I couldn't have been blessed with a better example. I love you dad! Thank you!

Mom: Thank you for giving me this wonderful experience called life. We've shared so many laughs, chats, and tears... You are the most caring, compassionate and patient person I know. I hope I can become a fraction as beautiful a person as you. You have taught me lessons on humanity that no book, professor, or coach could ever provide. You are a miracle... I love you Mom! Thank you for protecting me through so much!

Andrea and Arica: To my baby sisters I wish a world full of laughter, smiles, and happiness. We've come a long way together and been through some times, but we have stuck together. I am proud of you both and know that no matter how many miles separate us, our sibling bonds will never be broken. Arica, you have taught me that I can stand up against adversity and survive; Andrea, you have taught me that simplicity is grand. Thank you for sharing my dramatic flare and love of life. I love you girls! Thank you!

Kip: My best friend! Over the past two years you have been my backbone. I could not have gotten through this without everything that you have done for me... there is little I can say that can express my gratitude. You have helped instill a confidence in me that had never been there before and opened my eyes to experiences that have changed my life. Knowing you has helped me grow so much! I look forward to sharing a life-long friendship! You truly are my STRENGTH! I love you Kip! Thank you!

Grandma Charles: This degree is dedicated to YOU! I know that you are watching! I always admired your quiet strength and calm personality. We shared such a passion for sports. We were so much alike gram! I know it's selfish, but I wish you were here to see this! I miss you! I love you Gram! Thank you!

Grammy and Grandpop Demidont: Your ability to overcome the steepest of odds is inspirational! Both of you worked hard to make it possible for a Demidont to become a physician. I love you both! Thank you!

My Family: Thank all of you for believing in me!

My Friends: Mary: what can I say? It was a pleasure! Thanks for always having my back and listening to all of my drama!

GOOD LUCK! Shelly: Attention all deedle-doots... we have only just begun to know one another, the future looks terrific!

Christine: Been to Orlando lately? We have many more video documentaries to create. Your future is exceptionally bright... you can do anything! **Jason:** We have become separated by distance, but our friendship will always be strong. Thanks for putting up with me! **Silbs, Miller, Larry:** Here's to Rowland Hall! **Karin G:** Your smile and brightness helped keep the darkness of study; and books a little less dull. Thanks for listening!

Mom and Dad: I would have never been able to achieve my goals without your support. The two of you provided Michelle, Greg and I with every opportunity. I can't think of a time when you ever put your needs ahead of ours. What I accomplished was easier and only possible because of the two of you.

Michelle: Since I can remember you have been testing the waters before me. From elementary school to college you were always there to guide me and help me. Whether it was making sure I got to the bus stop on time or supporting me during a finals week, you would always pass on advice from your experiences to help me out. You wouldn't believe how much this means to me.

Greg: You are a constant reminder of what it means to be a man of his own mind and feelings. You never hesitate to tell people how you feel or what you think. There have been many times that I've asked myself, what would Greg do or how would he handle this situation. I admire you for this talent and I'm sure I'll be asking myself that question many times in the future.

I don't know exactly where I would be without your guidance and encouragement, but I do know that I would be a lesser person if not for the both of you. Your consistent devotion to my ultimate success has always inspired me to achieve. In a lifetime, I know that I could never give back to you all you have given to me.

Four years of medical school really gave me the opportunity and reason to question my decision to enter medicine. At times long days and nights of studying were enjoyable and other times unbearable. Being broke taught me the value of money, while being deep in debt told me to enjoy it however I could. Like everything I have done before, I could not have accomplished this without the help, love, faith, and trust of my Mom and Dad. The support I received from my brothers, sisters and my entire family has always been appreciated. I want to thank all my friends who stuck with me through the years, I wish I could have been a better friend in return. I found some of the best friends I have ever had in medical school making it all worth while. Thanks for putting up with my annoying quirks, doucheness, immaturity, Magic Johnson and the Bush Administration. This would not be finished without thanking God for always being there when I needed him, and the times when I did not realize I did.

It has been a journey filled with many blessings, and for that, I am forever grateful. A stream of kind thoughts, encouraging words and continued prayers. I am the dream of yesterday and the hope for tomorrow. To my ancestors...thank you for paving the way. To my family, near and far...you held me up, taught me to walk and encouraged me to run. To the love of my life...thank you for taking this walk with me. Your love has been the light in my life. To those who I have touched...just when you thought you needed me, I needed you just as much. Thanks, for the many hours of comfort and conversation. To my study buddies...the facts may soon be forgotten but the laughter and friendship will always remain.

These last four years have been the most difficult and yet the most fun time of my life. I'd like to thank all my classmates for a great four years and I will dearly miss the many friends I've made.

Brynt- Thank-you for being a wonderful, patient, and understanding husband. Were it not for your many pep talks, I may have made it through, but with much less sanity. I am looking forward to finally being able to live within the same house. It's been way too long apart.

My Parents- Thanks for teaching me to work hard. Cleaning all of those cars was the best incentive to choose a career where I can afford to pay someone to clean mine. Thanks for your support and never-ending grants. I love you both very much.

Becky- We have had so much fun. Life just isn't the same without Monday dart and daiquiri night. I can't thank you enough for the help with my wedding. You're a wonderful friend. Remember, there's always the painless tattoo parlor.

Scott, Robin, Mike, John, Eric, Roger, Jeannie- You are the best. Thanks for keeping things interesting. You've made these years great.

Mom & Dad- I wish I could express how lucky I feel that I have the both of you as parents. I couldn't have asked for two more loving, caring, understanding and supportive people to guide me. You have shown me what is important in life – family, education, service to others, and of course 100 mile bike rides. I love you both so much. Mom, is this the "Big Leagues"??

Mom, Dad, Mark & Chris: What to say other than thank you so very much for always being available for a word of encouragement, a bed or much needed loan. Your support certainly has not been forgotten or taken for granted. Thank you all.

Zia and Uncle Ed: Your words of advice and support have helped me to complete this five year journey pretty much unscathed.

I owe my gratitude to so many...

First to Travis, my kindred spirit - we almost managed to lose each other for good. Perhaps this entry will serve as a reminder to us of how foolish we can be at times. I have always felt your love for me. I am very grateful to you for your support. I will love you always.

To Andrew, my son - Andrew when you were born I was so excited to start showing you the world. But as it turns out, it has been you that has shown me. You have taught me more about love, respect and understanding in your six blessed years with us than I knew existed.

To my parents - Mom, you are with me in my heart always. I realize I am becoming more and more like you as I grow older. After all, I am your daughter. I miss you. Dad, thank you for supporting me. You and Mom gave me a great childhood. I learned to be strong and independent. Someone once said that a child can never repay her parents for all their support. She can only raise her own children and pass on what she knows. I hope I do a good job.

To my siblings - I am so thankful you guys are there. I will always be there for you.

Finally, to my friends - thanks for listening. I pray for all of us to have the *Kathryn D. Gaines D.O.* happiest and healthiest of futures.

Mom and Dad: I could never thank you enough for the love, support, and compassion you have given me over the years. The gratitude I have for the sacrifices you have both made so that we could have the very best, is insurmountable. I never could have made it this far without you both. Thanks for always being there.

Heath and Chad: Well boys, it seems we've all grown up. Time really passes by quickly. It seems like just yesterday we were down in the garage playing knee football, wrestling, and giving atomic elbows. Who would of thought years later we would all be heading for careers in the medical profession. Good luck to both of you in your future academic endeavors, and I wish you both the best.

Garrett and Ethan: The joy and happiness you two boys have brought me in watching you grow up, you will never know. Because of you two, I looked forward to every trip home, and dreaded every time I had to leave. I will always be there if you need me.

I love you all more than words could possibly express.

Rachel: December 20, 1997 must have been the luckiest day of my life. On that day, not only did I meet the love of my life, but also the best friend I could ever have. From that day, my love for you has grown with every moment. Despite being hundreds of miles apart, our relationship has blossomed, and is one that I shall treasure always. What else can I say chica, but I love you.

To the Occupants of the "Flop House" and other PCOM friends: Well guys, we finally made it through. It was a long four years, but those years have provided me with some of my fondest memories, and some of my best friends. I wish you all the best where ever life's path may lead you next.

Some people come into our lives and quickly go...Some stay for a while and leave footprints on our hearts, and for that we are never, ever the same.

MOM and DAD: What can I say to the two greatest people in my life? Thank you for your years of love, guidance, unending support and encouragement. You always had faith in me, even when I didn't. My dream of becoming a doctor is now a reality— thanks for that Fisher-Price doctor's kit!!! Love you lots!!

Aunts, Uncles, and Cousins: You gave me more than free food and a room; you gave me much needed love and support on my away rotations.

PCOM Women's Rugby: We started this team when we grew tired of sitting on the sideline cheering for "the boys". Just shows that we women can do anything we put our minds and hearts into. PCOM RUGBY RTTO!

My lab partners: Your friendship lasted much longer than one trimester. For that, I am forever grateful. Long live Stella!!

My closest friends from HCHS, TSC and PCOM:

You were always just a phone call away and knew how to make me smile. Special thanks to Lisa, my personal pharmacist and best friend! *"Truly great friends are hard to find, difficult to leave, and impossible to forget"*

You taught me that the values of caring, hard work, and dedication would someday be rewarding – I finally realize that you were right. Thank you for everything you have ever done for me. I love you both very much.

LORI: To my beautiful wife whom I love deeply. Thank you for sharing your life with me and for giving me your unconditional love. I want you to know that I could not have done this without your love, help, and support. Thank you for everything you have ever done for me. I love you and look forward to spending the rest of my life with you.

When you discard arrogance, complexity, and a few other things that get in the way, sooner or later you will discover a simple, childlike, and mysterious secret: Life is Fun.

Benjamin Ho

The time has finally come and I guess it is time to finally enter the world outside of school. I have to admit there were many times when it was very difficult for me emotionally and intellectually, but I sure had the absolute best times these past four years. Yusko, D's, and Joe, remember all the wild times. We sought, we experienced, we drank, we learned, we enjoyed, and we conquered anything that came in our path. I will never forget any of these memories, and look forward to many more. None of this would have been possible without the love and support of my entire family. Mom, Dad, Corrie, Kristie, I love you all. You were always there for me and I appreciate all you have done for me. Thank you so much for everything. I also want to thank Edgar for being there for me all the time, no matter what. He is the most patient and loving living creature of all time. The stories he would tell if he could only talk... Mom and Dad, this is for you. I love you so much. ...now for the next step in this long journey called life...

I would like to thank all those involved in my life who have supported, nurtured and loved me. I am very proud of who I have become and feel blessed to have been surrounded by special people all my life. No one person has made more of a difference, however, than my wife Kim. I love her with all my heart and I am very excited by what lies ahead for us.

I thank Allah for willing this for me, and sending help through people like: Roland, Ma, Trin Aunt, Brenda, Pat, and the rest of my family: David, Aasma, Firas, Ahmed, Hassan, Omar, Ulrick, Dr. Borghaei, Dr. Deghigh, Joyce, Bukhari, Bruce, and other members of the Ummah! Charlene, Bryan, Lori, Darlene, Carlos, the Family, and SNMA; Gaye, Chris, and other cool people. Yvette, I will never forget your kind offer in our first weeks here. Ben, it has taken a while to really appreciate what you did—thanks. Ed, thank you for speaking up for justice. *Alhamdulillah* for the OMM treatments; kind words exchanged with many; numerous faculty attendings, residents, and upper-class-people who were more than just good teachers; Rob, Shawn, and the security and plant operations departments, who were especially in my corner and without whom the school would fall apart; my friends in the library; the deep conversation with Amy, Miriam, Kate, Al...; those who patiently listened to my misadventures; those who asked rather than assuming or gossiping; the majority who looked past my exterior, the usual misunderstandings, stereotypes, and misconceptions to the person inside; and numerous other things. I guess everything and everyone else has made me stronger, *maasha'* Allah. I hope I didn't forget anyone. Below:

Praise be to Allah, The Teacher, the Unique, Majesty of the heavens, the Exalted, the Glorious, glory be to Him, the Eternal being who Created the universe and all the creatures within, and the only Being who containeth the infinity and the eternity. We serve no other God beside thee, and regard idolatry an abominable injustice.

Give us the strength to be honest, modest, merciful, and objective.

Give us the fortitude to admit our mistakes, to amend our ways and to forgive the wrongs of others.

Give us the wisdom to comfort and counsel all towards peace and harmony.

Give us the understanding that ours is a profession sacred that deals with your most precious gifts of life and intellect. Therefore, make us worthy of this favored station with honor, dignity, and piety so that we may devote our lives in serving mankind, poor or rich, literate or illiterate, Muslim or non-Muslim, black or white, with patience and tolerance, with virtue and reverence, with knowledge and vigilance, with Thy love in our hearts and compassion for Thy servants, Thy most precious creation.

Hereby we take this oath in Thy name, the Creator of all the Heavens and the earth, and follow Thy counsel as Thou hast revealed to Prophet Mohammad (pbuh).

To My Husband, Barry: I could not have done this without your love and support. Through all the rough times you have been my source of encouragement, my shoulder to cry on. No matter how difficult things were for you, you let me lean on you. Don't think I went unnoticed. I know we earned this degree together. Remember what you always told me, "If you want good, your nose has to run". I love you always.

To Mom and Dad: Thanks for always believing in me and supporting me. I could not have done this without you. Mother, you have always guided me, not just with words but through your actions. You have overcome many obstacles and sacrificed much to help me achieve my goals. Dad, you have always been there for me. Like a rock, not saying much but firm and solid. I know I can always depend on you.

To My Children: Junior, Brandon, Marcus And Jasmine – You are wonderful children. You have endured much with a mother who is often away studying and when present often distracted by exams and deadlines. Please know that I love you and appreciate your patience and understanding.

To those who started this journey with me, but had to leave before it was over- Grandmother Gladys, Grandmother Nana, Mother-In-Law Greta, and My Darling Daughter Shannon: A piece of me left with you, but a piece of you is always with me. I miss you so much but memory of you inspires me every day.

To Family and Friends: So many have helped in so many ways and I appreciate it all. Your help and support started well before I got to medical school. You always encouraged me to do my best. Whether it was babysitting, riding to Philly with me or listening to my complaints, I want to say thanks.

To Kim, Michelle, Brinda and John: It was great! You guys made an arduous task easier and a long journey shorter. Thanks.

To my parents: Thank you for your unconditional love and support throughout every day of my life.

Most of all I thank you for all that you have taught me and for the goodness you shared. I am very blessed to have parents like you—Cookie. P.S., this does not mean you get free manipulation!

To my sisters: Laughter is the best medicine! I admire you both and love you dearly. Thank you for the years of wise advice, and for the numerous moments you lifted me up when I was discouraged. You guys make my life so easy and so much fun. To **Eric**, I can't imagine anyone more wonderful for my sister. If I need a knee replacement, I'll come to you first!

PCOM friends: A mere four years of sleepless torture just to repeat it again. At least we get paid this time. Despite the tests we took on lectures we never had, the headaches we endured from months of cervical HVLA, the nights we spent learning the wrong drugs, I had a great time along the way. *"Now all has been heard; here is the conclusion of the matter:
Fear God and keep his commandments, for this is the whole duty of man. For God will bring
every deed into judgment, including every hidden thing, whether it is good or evil."*
Ecclesiastes 12.13-14

"Blessed are the poor in spirit, for theirs is the kingdom of heaven.
Blessed are those who mourn, for they will be comforted.
Blessed are the meek, for they will inherit the earth.
Blessed are those who hunger and thirst for righteousness, for they will be filled.
Blessed are the merciful, for they will be shown mercy.
Blessed are the pure in heart, for they will see God.
Blessed are the peacemakers, for they will be called sons of God.
Blessed are those who are persecuted because of righteousness, for theirs is the
kingdom of heaven."

On hearing this, Jesus said, "It is not the healthy who need a doctor, but the sick.
But go and learn what this means : 'I desire mercy, not sacrifice.' For I have not
come to call the righteous, but sinners." (Gospel according to Matthew 5.3-10,

Mom and Dad: I don't have the words to tell you just how much both of you mean to me — you have always been my greatest source of strength. Your support and love were endless throughout this entire ordeal and it never went unnoticed by me. This degree is as much yours as it is mine and I just want you to know that I love you both very much..

Paul and John: I wouldn't have made it without the two of you. Through the endless ups and downs we weathered the storm *together* and never once lost our sense of humor. I just hope that, as the years go by, you don't stray too far from me (after all, somebody has to strike you guys out!!)

Brian: I followed you into the ocean a long time ago and you led the way ever since. We've been friends since the age of four and I know that's never going to change. Thanks, captain, for everything.

John: Since 3rd grade you've given me a lifetime of memories. Through grade school, high school, and college you've been at my side the entire time. The world made room for both of us, John, and I can't help but think that our little pink houses are right around the corner.

Jimmy: Thank you for being my older brother all these years.

Nicole: I look at you and I just thank God I stayed late that day way back in November. This past year has been the best of my life. You showed me who I was inside, Nicole, and I thank you for that because I never realized just how incomplete I was before I met you. You taught me sincerity and, most importantly, you accepted me (mistakes and all) for who I am. I love you so much.

I can't believe this day is actually here - I'm a doctor!
I have to thank my parents most of all for all of their hard work they have done to help me get where I am today. Their dedication and love means more to me than they will ever understand. I wish health and happiness to them and the rest of my family.
Without my friends at PCOM I don't know how I would have survived. I hope you know how important you are and forever will be. Medical school is a tough long road and without you, it would have been impossible! Evenings together at Presidential, studying and laughing, will forever be etched into my memory. I will always remember walking to exams from our apartments no matter how inclement the weather. Neither snow nor hail kept us from taking those exams and then checking our answers together at the booths in the cafeteria.

I have learned a great deal here at PCOM, but the biggest thing I have learned is that there is so much more to know. Being a doctor means always having to be a student. Thanks to everyone for making my dream come true!

To Mom and Dad: Not much else to say other than thank you so much for everything over the last four years – I never would have been able to accomplish this without your guidance and support. You've always been there for me and I'll never forget that.

To PP, CF, BS, BL, MK, JM, NK, MB, MC, CJ, MM (the enormous one), the master's class, and everyone else I forgot to mention – this made medical school a lot more fun than I could ever have imagined. We've all been too close over the last four (or five) years to not keep in touch. This whole experience would have dragged if it weren't for all of you

To LC, SS, MK: It has been a great eight years since we first started at BC and I know that you'll all be following me to my place of residency and employment so I'll see you at the water cooler. It's been a great journey and I know that we'll always be close – I'll be at all the reunions.

The most worthwhile undertakings and accomplishments in life are never done alone. This is because we are at our best when we have the support, friendship and love of those around us.

Stephen: You have taught me to be a stronger and braver person. You make me feel anything is possible with perseverance and determination. Medical school has been a true partnership for us. You have given me incredible and unconditional support over the past four years. I want you to know that the accomplishment I am most proud of is our marriage – and it just keeps getting better. I love you, parking spots.

Mom and Dad: You have been supporting me the longest and I know my circuitous approach to my goals must have been stressful to watch at times. Yet I know what unconditional love is, because I learned it from you. You have also taught me the most important measure of a person is in how they treat others. My patients will thank you. I love you both.

Meghan and Bill: We have become such good friends along the way, which is the best thing that can happen to sisters and brothers. I love you both!

Jackie and Jack: You are my family in Philly!
You are also the finest that people can be
in this world Thank you both.

Mom and Dad- Thanks for all your support, not only in medical school, but also throughout life. I realize we have been going through some tough times as a family lately, but without your strength and emotional encouragement, none of this would have been possible. Here's to many more years of fishing together.

Megan- Not only the love of my life, but also my best friend. Thank you for showing me how to be a better person. My life would be empty without you. I look forward to many more years together.

D's, Yusko, and Godin- Thanks guys for making the last four years some of the most enjoyable yet. Who would have thought we could have so much fun? Yusko, good luck in Mexico. Godin, I hope photography class pays off. And D's, good luck at managing the Pink Pony.

Suzanne. These past four years reinforced all over again the reasons that I married you. Thanks for your understanding, support and for always being the one who knew that I could do it. You cheered louder than any one else when things went well and picked me up first when something didn't. You helped make a dream come true: I'll spend the rest of my life to make yours. I love you.

Lauren. My baby girl and best buddy. You arrived in the middle of all of this and suddenly Mom and I felt complete. Thanks for helping me to rediscover the world.

Mom and Dad. This is not my accomplishment but rather a reflection of the person that you taught me to be. You gave me the foundation and provided the freedom to let me grow. You taught me perseverance and how to believe in myself. Thank you for your love.

Not only are you both the greatest role models I could have asked for, but you are the two most kind and good people I know. My health, successes, and happiness are directly attributable to you. Hard to believe another four years has passed by.
Hard to believe we will head out from here as doctors, a blessing to the world around us.
As the memories float through my mind they whisper words of happiness, struggle, wonder, doubt...but ultimately, inner peace. Each of us has accomplished this great feat. Not to show it off to the world saying, "Hey, look what I did ", but to offer it as a gift so that others may flourish. That is my hope.
My thanks go to all of you for helping me grow into who I am today.

This page is dedicated to my family, especially Dolores Pohl who will always remain the wind beneath my wings. **Mom and Dad:** It is hard to believe this day has arrived. Words can not express my appreciation for the support, strength, and mostly love you have given to me. This day would not be without you.

Through your example I have learned life's biggest lessons. Thank you for being who you are; my parents, my mentors and my best friends. I love you.

Matthew: There is no one in this world who can make me laugh like you. I am a fortunate person to have a brother who is also a best friend. You always had faith in me especially when I needed it the most. You are a very talented, creative, intelligent, hard-working person. I am so proud of the man you have become. Two words for you — *Cha-Ching!!!*

The Family: Every single person has been a source of inspiration to me and I want to thank you for being such a strong and positive factor in my life. We all know who keeps us together and she will smile upon us forever.

Friends: past and present ~~Conwell~~ **SAJ, G, MB, ACK, KB, BF** and ~~LaSalle~~ **JD, JN, TC, MB, MW, MD, SCE, KE, AS, LB, F, JS, BF, Bill and the Beach.** Without you I would definitely be admitted to a psych hospital. **Jen and Jen and T.** You have seen me through the good and bad and I know we will remain close for our lives. The stress of medical school was lessened because you never let me forget who I am and why I chose this path. Thank you for your words of encouragement all these years. I have been blessed with good people in my life.

Friends of PCOM: You all will be excellent physicians in whatever career decision you make. Thank you for some of the best years of my life. The friendships we have made in med school are unique and only understood by those in them. *I wish you every success in the future.*

AL, KS, LB, SS, ML, BS, BL, JM, SF, TH, CD, PP, NL, JN- I thank God for that '99 wait list letter because our friendship would never be. We have survived much craziness and so much more lies ahead. Thanks for the laughs, the "serious talks", the study sessions—**Mark**, studying was one of the most entertaining aspects of my life. I will miss those days. **Al, Kathy, Loren and Sharon**—you will forever be in my mind and heart no matter where our careers take us. *"All hail the pudental nerve!"* **Brett**—we have proven that we don't need to be in the same class to remain friends. Because of you, life is good, we are better people, and the world is a better place. For this I am grateful!

I owe a heartfelt thank you to my **entire family** for their boundless support of *everything* I have ever done in my life. It is wonderful to feel so loved and supported by you. Always know I am here for you and your families, too.

To my classmates,
As important as your obligations as a doctor, a lawyer or a business leader will be, you are a human being first, and these human connections with spouses, with children, with friends are the most important investments you will ever make. At the end of your life, you will never regret not having passed one more test, winning one more verdict, closing one more deal. You will regret time not spent with a husband, a child, a friend or a parent. Our success as a society depends not on what happens in the White House but on what happens inside your house.

The Serenity Prayer

You who are on the road
Must have a code that you can live by
And so become yourself
Because the past is just a good-bye.
Teach your children well
Their father's hell
Will slowly go by
And feed them on your dreams
The one they pick's
The one you'll know by.
Don't you ever ask them why
If they told you, you would cry
So just look at them and sigh
And know they love you.
And you, of tender years
Can't know the fears
That your elders grew by

And so please help them with your youth
They seek the truth
Before they can die.
(Can you hear and do you care
And can you see we must be free
To teach your children what you believe in
Make a world that we can live in.)
Teach your parents well
Their children's hell
Will slowly go by
And feed them on your dreams
The one they pick's
The one you'll know by.
Don't you ever ask them why
If they told you, you would cry
So just look at them and sigh
And know they love you.

I would not have been able to stay as focused on my studies without you, especially your nightly trips to Rowland Hall with my dinner and snacks. But most importantly I thank you for giving me my beautiful son Joseph III, who has given me such joy, even greater motivation, and a new perspective on life.

And finally, a short but true story. In my third year of pharmacy school I became frustrated and disinterested. My mother, sensing my angst, imparted some auspicious wisdom. She said "just get your degree in pharmacy. Even if you are unhappy with your career choice you can work part time earning a respectable income, while searching for something you enjoy. And why don't you pick up your saxophone, its been a few years since I heard you play. I'll bet you can make some money doing that. Who knows maybe you'll want to go back to school some day." I incredulously responded, you must be joking. Well, if it weren't for my pharmacy degree and working seven years in the nightclubs playing my saxophone, I would not have had the opportunity to return to school and certainly would never have realized this dream. Thank you for your strength, inspiration and spirit.

Chelsea and Patrick O'Dell, ages 4 & 2

To Lisa: "It must be difficult being a medical student with a family." I have heard this comment countless times over the past four years, and each time I have responded inadequately. I knew I could not possibly describe all that you had sacrificed and endured in order to allow me to fulfill this dream. We alone understand how often it would have been easier to simply give up. Your commitment to achieving this goal allowed me to stay focused on the relatively simple task of obtaining this degree. You quietly tended to the far more difficult task of maintaining a home and caring for at first our two and then our four beautiful children. You continue to look optimistically to the future despite endless hurdles and knowing how difficult the next few years will be. So now it is me who will receive the accolades. It is my name on the diploma. People will call me "Doctor". I will tell them to take a moment and to look behind the scenes at you and the children, where the real accomplishment has taken place. I am proud to share this achievement with you.

I would like to thank my family and friends for giving me the emotional support I needed to achieve my goal of becoming a doctor. I would especially like to acknowledge Michele for sticking with me and marrying me. I know we will be together forever. I also would like to thank my parents for backing me up through out my education. I would also like to thank Dr. E. And finally, I would like to thank all my attendings, instructors, professors and patients who have opened my mind to the infinite possibilities of life and enabled me to see them.

To my family:

Thank you all from the bottom of my heart for simply being involved in my life. The love I share with each one of you is the very essence of me. My only wish is to be capable of providing my children with the ideals of family I enjoyed:

a mother who gave her life to us,
a father who was admired by me to the point of becoming him,
an older brother who always fulfilled his role as "big brother",
and a younger sister whose very presence was sure to bring a smile to my face.

You mean everything to me.

Mom To the one person in this world who always believed in me, never gave up on me, encouraged me, and inspired me. I thank you for all of your support, dedication and unconditional love through the years. None of my achievements would have been attainable without you. I love you for the person you are and the man you made me.

Arnold I would like to thank you for being there for me when times were bad. I realize that none of it would be possible if not for you. Love you!

Mark & Keith You guys have been more than just brothers to me. You are also my best friends. We have been through a lot over the years and have grown closer because of it. I still remember all the trouble the three of us got into together..... those were the days. How about all the jokes we used to play on people. I remember studying on weekends and the two of you would call me up at 2:00am on your phones (half drunk) and call me a geek for studying. Well, it finally paid off. I love you both!!!

Rachel Even though I only know you since the middle of my third year it feels like I know a lot longer. I guess that can be a good thing or a bad thing ☺. I would like to thank you for brightening up my life with your high energy, big bubbly smile and great accent. I am glad you are a part of my life. Love you little Rachel.

Annie "Baby" I still remember when I was a little boy how you would bathe and feed me. I have come a long way since then. I am happy that you are here to see me graduate. I wish Poppy, Auntie, and Uncle were here to see. I love you all.

Lisa & Debbie I am glad that the two of you are part of my life and can share all of the happiness.

My Friends To Bill "Big daddy Pimpis" Pittas, Alex "My buddy doll" Kirifides, Roger "Bud bundy" Getts— You guys have made medical school fun. I take with me some great times and some life long friends. I still don't know how I went to the DEN with you guys until 2-3am and made it to 8:00am lectures. I am going to miss those days. Mom and Dad: Mere words cannot express my gratitude and love for you. It is through your constant encouragement, sacrifices, and unconditional love, that I have been able to achieve my goals. Catherine, Robert, and Diana: Growing up with the three of you as siblings has been incredible! We are so fortunate to have such a close, loving family. I have always cherished the memories of being your little brother. Thanks for the years of advice, strength, and friendship.

Every intern makes mistakes. The important thing is neither to make the same mistakes twice nor to make a whole bunch of mistakes all at once. Dr. Pearlstein, *The House of God*

Four years ago, I was graduating from college and heading to medical school. I was newly married and starting an exciting new life. Well, it certainly has been exciting. At times, I didn't think I could make it; at other times, I didn't want to. Through it all, I have felt the arms of Jesus holding me up and carrying me through. Now, here I am four years of marriage later with a two year old son. What will the coming years hold for me? — successful career? more children? — No one ever knows, but I'm sure it will be exciting, and I'm sure that God is in control of whatever happens. To Him goes the greatest **thanks**.

Tricia and Caleb - It's good to be a family, huh? Thanks for your patience. Thanks for your understanding. Thanks for everything. I love you.

Grandpa, Grandma, Dad, Nancy, Danny and rest of family - Thanks for supporting me in whatever I do. I always know that you believe in me.

John, Mary, and extensive family of in-laws - No one has ever felt like so much of a member of a second family as I do. Thanks a lot.

My friends through college and medical school - You each mean something special and unique to me. Thanks.

I would like to thank God for giving me the insight to recognize my dream of wishing to become a physician, and my parents for allowing this dream to become reality. It is through the unwavering support and unconditional love of you, mom and dad, that I am the person I am today. You have inspired and taught, as well as, ingrained within me the virtues of modesty, integrity, honesty and pride. I love you both more than words can ever justify, thank you for everything.

I have been fortunate enough to make life-lasting friends while in medical school. Charlie, Pam, Mike, you have shown me the gold standard of true friendship, and you have made this trip amazingly fun and filled it with many incredible memories. I have also dragged some life-long friends with me through this experience, Jared, my little bro, and Gill. With both of your help, we have upheld and tested that old adage- work hard, play hard!

And finally, for confirming my belief that everything happens for a reason, I would like to thank my reason, Caroline, you have stood by me and, no doubt, will continue to stand by me as our journey continues. You, I love for so many reasons. Thank you for coming into my life, you have changed it immeasurably.

You will always hold the most special place in my heart. I love you both.

Stephanie: Thank you for always being there, both as my sister and as my friend. Your cards of encouragement always seemed to arrive at times when I needed them most. Thank you.

Grams: I am so lucky to have a grandmother like you in my life to look up to. Your love and constant support has enlivened the sense to succeed in me. You have been more than just a grandmother to me, you have also been my guardian angel.

Pops: I know it always gave you much pleasure and joy to see your grandchildren accomplish even the smallest of things. This time I've accomplished something great, and I can feel the glow of your pride and happiness shining down upon me.

Nanny: You were always such a big part of my life, and your spirit is strong within me. Our Sunday mornings spent drinking coffee and telling stories remains one of my fondest childhood memories. I miss you and I love you.

Maria: The past six years has been an adventure, filled with love, happiness, tears, and laughter. Thank you for your patience and for helping reach this milestone. No matter what the future holds, you will always and forever be my first true love and my best friend.

*We are called to act with justice, we are called to love tenderly,
We are called to serve one another, to walk humbly with God.*

A hymn by David Haas

Mom and Dad: I love you both very much. Your lives have served as the template for my moral and intellectual development. Your drive has driven me. Your honesty has kept me honest. Your compassion and service has taught me the true meaning of love. I have so much which to be grateful and you are at the top of my list.

Louis: We are very different in so many ways, but despite our differences, a friendship has evolved, which is firmly rooted. We challenge each other to achieve goals that might not otherwise come to fruition.

Rita: My little sis, you are a big presence in our family, the life of the party! But, that is not what I admire most about you. Your greatest asset is your kind heart. You are genuinely nice to all people and truly live your life by the great commandment. I am very proud of you.

Lizzie: My friend, you and I share so many ideas, hopes and dreams. At times I feel we share the same mind; we seem to communicate without words. At the very same time, we see the world through very different eyes; you, more sensing, and I, more analytical. Your perspective helps me to become a better and more complete person. Even at our young age we have shared so many adventures, but so many more lay ahead in our future together.

Grandmom firehouse: I appreciate your selfless giving and unconditional love. You have given me so many fond memories over the years. You have taught me a lot about the meaning of family and I feel honored to call you grandmom.

Grandmom beach: You have taught me a great lesson -- the value of today. I will strive never to take the people and things around me for granted. I miss you dearly.

LP Posse: We've experienced many late nights at the bars and many early mornings in the sun. We threw the Big Beach Bash, Parts I and II. If your friends jumped off a bridge, would you? Who used to bike Straight outa Compton? Recent years have been rough and I may not have been around as much, but I know that I can always count on you.

Mom: Looks like we finally made it to the part where "We will look back on all this and laugh". **Thank you** for being such a devoted mother... For giving me a childhood filled with wonderful memories I will always cherish...And for all the love, support(emotional and financial), guidance, and friendship that has made all this possible. I love you. (But don't think you're off the hook yet...I still have to get through internship and residency...ha ha)

Teri: **Thank you** for always making life so interesting...what would we all have done without our little cherub. May all your dreams come true.

Ron and Lisa: How can I ever **Thank you** for your constant love and support. (See Ron...leaving Lockheed wasn't such a bad idea after all...another 10 or 15 years I may have paid off enough on my loans to afford a new stereo...ha ha)

Ryan and C.J.: My absolutely gorgeous nephews...**Thank you** for all the silliness and laughter...just the thought of you brightens my day in even the darkest moments. I love you both with all my heart.

My Friends: Where do I begin...**Thank you** for dealing with me through all the insanity...for always believing in me...but most of all...thanks for all the laughs and fun. **THE BEST IS YET TO COME** (And if this plastic surgery thing works out...nips and tucks for everyone...Not that any of us will need it,of course...ha ha)

Dad: Becoming a Physician has been my greatest win...not having you here to share it with is my greatest loss...how bittersweet. Please know I'd trade anything to have you back...I think of you everyday ...
I miss you terribly...I love you.

EVERYTHING HAPPENS FOR A REASON!

to reach lofty goals one must first be surrounded by special people who provide them with motivation and support. I am lucky enough to have those individuals in my life.

AURIE: My wife, my companion, my soulmate. You have been a very special part of my life over the past 10 years. You stuck by me through it all and tolerated my many mood swings. My love for you grows stronger everyday and because of you I know that true happiness does exist.

PA: You are my special gift from God. I can not express the joy I experienced when you were born and entered my life. When I come home and look into your eyes I remember what is truly important in my life. I will always be there for you and I promise to be the best and coolest Dad I can be.

MOM and DAD: Thank you for your unconditional love and support. You have taught me so many valuable lessons in life and your words of wisdom have helped me through some difficult times. All that I am and ever hope to be, I owe it all to you.

REGG: You are the best little brother a guy could ask for. Our accomplishments in life may be different but our bond as brothers will always keep us close. Thank you for being proud of me.

MIKE: I will never forget the two years we spent as roommates. The late night runs to the 'at's. Waiting until the night before to study for tests. Watching Clerks and Chasing Amy one hundred times, and taking the day off from class to visit Red Bank, New Jersey. And remember what Jay and Silent Bob always say...Snootchie-bootchies.

FRIENDS: I want to thank all of you for a fabulous four years. I will always treasure the times we shared together, especially Florida and Myrtle Beach. All of you made medical school fun, enjoyable, and unforgettable. Always stay in touch.

"I drank what?"

Socrates

The years at PCOM have been difficult. Some say they have been the most difficult years so far, and others say these will be the most difficult of our lives. Perhaps this is true: all the hours spent studying when I could have been out doing anything else, all the stupefying exams taken when my brains simply couldn't hold anymore information, and all of those nights up late when I could have been snuggled up beneath the sheets. To some, it's a nightmare that they prefer to forget, but that's not how I remember it. When I think back on my years here at PCOM, I remember close friendships, the kind that last forever. I remember wild parties, study groups, and conversations over lunch. I remember the anxious excitement I felt in the first day of anatomy lab, wondering if it was all too much for me to handle; and I remember the last day of anatomy lab, wishing that it would never have to end. Yet everything must come to an end, and so the medical school years will melt away behind us. But there is a special bond between us all, and I will remember that forever.

As I grow "older", I hope I will be able to repay a small portion of all that you have given to me.

To my Parents, Aunts, Uncles and Cousins: I sincerely thank you for the 28 years of continued support you provided to me in so many wonderful ways. I am truly blessed with such a large and close family. I especially thank you, Mom and Dad, for guiding me through the world and offering your wisdom, even during those few times when I might have been resistant to your advice. You raised me well.

To my best friend and Wife, Michele: I am certainly glad you tried to steal my seat on the airplane! I thank you for your endless support and encouragement throughout this medical school adventure. I know it has been difficult being apart for more than half of the last two years, but we made it! As each day passes, my love for you grows stronger. I look forward to the rest of our lives and the continued adventures that we will share together.

To all of my friends: I will always fondly remember the many nights in the War Room(s), Penn State football games, and the many other great times we enjoyed together! I hope we will all stay in touch in the years to come.

"Remove all obstructions, and when it is intelligently done, Nature will kindly do the rest. Harmony only dwells where obstructions do not exist." A.T Still

After FIVE years at PCOM, I'm finally at the end of the beginning. The OMM Fellowship has done more for my "hands" than I doubt could have been attained without it. The RUSH I get every time a patient gets off the table again able to move... I'm doing what I'm supposed to do with my life.

Madelyn, your willingness to keep the homestead together, kids and all, making the sacrifices, allowing me to make the sacrifices needed to continue on this journey for our future, has made this difficult decade (has it been that long?) easier to overcome. We've done it together. I Love You!

Mom, thanks for all your support and cheerleading... I hope Dad is proud... I DID IT! I Love You.

Mom & Dad, your undying support of me, Madelyn, Ashley and Matthew has been a blessing. I truly have no idea where we would be if you two were not there for us these past five years. We owe you our undying love and affection... as well as complimentary OMT whenever needed.

Alex Nicholas and Steve Sanet, my friends and colleagues, have helped me to attain the ability to treat the patient as effectively as I am now able to do. Your friendships mean the world to me.

Thank you to each and every patient who has graciously allowed me to practice my art on their bodies, assisting me in my endeavor to become truly great in the art of Osteopathic Medicine.

Mom and Dad: Thanks!! You have given me not only the support and desire to reach my goals but, more importantly, you have instilled in me the strength of character to become the person I am today. Thanks for your love and never ending support in all of my decisions. I love you both very much.

Dave: Hey big brother, what can I say? I made it! I guess I must have learned something from you after all those years of following you around, competing with you in chess, monopoly, boat races, the barrel roll and of course the infamous bike race. I've learned more from you than you'll ever know. Thanks.

Despina: You're the sister I never had, so, of course I have to thank you for your sisterly advice and for keeping my perspective real.

To My Grandparents: Of course I owe everything I am to you. Grandma Pauline and Grandpa Ervin, thanks for teaching me the awe inspiring respect for life, through our summers on the farm and our strong family foundation, that led me to this career. Grandpa Lawrence and Grandma Grace, I know you are watching over me and we both know that you will always continue to guide me.

Sean, Bill, Suz: I can't imagine these last four years without you guys. From joking around in anatomy to trying to "blend in" when Dr Fogel was teaching, it's been fun! Although our careers will take us on different paths, no matter what the distance those paths are never too far away!

Julia: Thanks for putting a roof over my head these past two years. You are a terrific sister and an even better friend. I'm sure you'll be waiting for the day when I finally earn some money and start paying for things!

To all my Friends: We made it!! Thanks for being my extended family through medical school. Thanks for all of the great times- Thursday Night TV, study sessions at Taco Bell, walks to class, and endless other memories. Good luck to all of you in the future.

Carl: Words can not express how grateful I am to have you in my life. Thanks for believing in me when I didn't believe in myself, for your words of encouragement, and for helping me de-stress when I needed it the most. I can't wait to spend the rest of my life with you.

Medicine has been quite a shift from my earlier career as a mechanical engineer on submarines and later as a patent examiner. Near the end of college, I worked with two fellow engineering classmates to develop a lifting seat wheelchair for muscular dystrophy patients. I never imagined the impact the project would have on my goals in life. When I reflect on that project, I remember the satisfaction it gave me to work with patients on a personal level. I didn't find that feeling elsewhere and so I changed careers. Recently I ran into one of the college classmates who worked with me on that summer project ...his remark to me was "...saw you on the local News last year...". He is now a patent attorney. The other classmate became a priest after years in the automotive industry. I congratulate those who stumble upon a passion early on, but for those that do not, I feel it's never too late to follow one's dreams. All my love to my family, friends, and fiancée— thank you for your love, kindness, and emotional support.

"I can see clearly now, the rain is gone,
Gone are the dark clouds that hide the sun,
Here is that rainbow I've been praying for,
It's gonna be a bright, bright sunshiny day."

To our Sunshine:

You have taught us the meaning
of some very important words.

Determination: Should have been your middle name; enough said

Challenge: Something we never saw you back down from.

Courage: Even when you had doubts, you still had the
courage to persue your dreams.

Compassion: You're always concerned about somebody's
feelings; that will make you a wonderful
doctor.

Love & Loyalty: You have friends from 1st grade through medical
school, and you cherish them all. Your love for your
family is boundless, and the very special bond you
share with your sisters is priceless and beautiful!

Joy: Another word created just for you. You have brought
so much joy and happiness into our lives, and we wish
you a hundred fold in return..

We are very proud of you, Skippy. We congratulate you and
pray that God will watch over you and guide your career as a
pediatrician.

With all our love,
Mom & Dad

Congratulations Benjamin Stenzler, D.O. To the Best of Best

A Note from the Editors

Dear Classmates,

Congratulations to the Class of 2000! **WE DID IT!** Who ever thought this day would come so quickly when we began medical school four years ago?! Before we knew it, we became doctors. We should all feel very fortunate to have such a phenomenal group of people to call "colleagues". The patients of the new millenium are going to be in very good hands.

We sincerely hope that you are happy with your yearbook. We put in an *unbelievable* amount of time and effort to make this book something special for you. While it was an enjoyable project overall, it was one hundred times more work than we ever thought possible. To those of you who aspire to be an author of a book someday, we strongly advise something much smaller than 409 pages! In any case, please know that we did our very best and we apologize in advance to anyone who is dissatisfied with the final product.

It is important to let you all know that this book would still not be complete without the help of some very generous people:

- Thank you to **Melissa DeAngelis**, **Jessica Roberts**, **Rebecca Armbruster**, **Cecila Alvarado**, and **Joanie Deatrich** for cropping so many of the senior pages.
- Thank you to **Matt Seely** for doing a phenomenal job on the advertisements.
- Thank you to **Joe McComb**, **Chris Davis**, and **Billy Dahms** for putting together the entire Timeline.
- Thank you to **Melissa DeAngelis** and to **Dan Harrison** for being such vigilant proofreaders. Without you, errors would abound!
- Thank you to **Brinda Kantha** and **Rebecca Armbruster** for helping us with the faculty pages.
- Thank you to our underclass editor, **Christine Duffner**, and to second years **Tricia Petrucelli** and **Christy Quietmyer** for handling all of the underclass sections, the organizations, the MBA, the PA, the graduate students and the administration section. You were an incredible help to us and you did a wonderful job!
- Thank you to our faculty advisor, **Hank**, and his advisor, **Denise**, for their help with anything and everything we needed. You guys are great and are a huge help!!
- Thank you to **everyone who turned in pictures** for us to use! We will get them back to you!!
- Thank you to **Bruce Fairfield** in our Educational Media department for taking and finding pictures for us.
- Thank you to **Carl Wolf Studio** for their endless cooperation and professionalism.
- Last, but not least, we must thank our Josten's representative, **Phil Klein**, for taking pride in his work. We appreciate all his patience, time, and effort on our behalf. God only knows what our yearbooks would look like without his assistance, but we assure you it would not be pretty!!!

Please accept our deepest gratitude and **good luck to the doctors of the new millenium!!!**

Sincerely,

Meg McComb and Jeannie Price
